### DETAILED ACTION

1. The abstract of the disclosure is objected to because it contains the term "means" (i.e. legal phraseology) throughout. Correction is required. See MPEP § 608.01(b).
2. New corrected drawings are required in this application because the submitted drawings are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
3. The disclosure is objected to because of the following informalities: "DE 195 16 878" on page 1 should be -- DE 195 16 876--. Additionally, "DE 199 35 500" on page 2 should be -- DE 199 35 500--.

Appropriate correction is required.

4. Claims 2-5 and 8-10 are objected to because of the following informalities:  
  
Re claim 2, "the opposite sense" should be --an opposite sense--for added clarity.  
  
Re claim 3, "the longitudinal vehicle direction" should be -- a longitudinal vehicle direction--for added clarity.  
  
Re claim 8, "the other end" should be --another end--for added clarity.  
  
Re claim 9, "(180" should be --(18)--.

Art Unit: 3612

Re claim 10, --wherein—should be inserted after the comma in line 1 to remove awkwardness.

. Appropriate correction is required.

5. This application is in condition for allowance except for the following formal matters:

See paragraphs 1-4 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. Claims 1, 6-7, and 11-12 are allowed. Claims 2-5 and 8-10 are objected to for the minor informalities noted above but are otherwise allowable.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note at least Dintner et al teaches a truck lid pivotable in opposite directions.
